1 Overview of Rikkyo GLP

The Rikkyo Global Leadership Program is a **systematic program that allows all students in any year-level and any college/department to receive the "leadership education" specific to Rikkyo University**.

Leadership is not a quality attributable only to special people with authority or charisma. Leadership, as this program espouses it, is about being attuned to one's own character and strengths, being engaged with one's immediate environment, and collaborating with others towards achieving a common goal. The goal of this program is to train students to demonstrate this kind of leadership, to think and act for one's self towards achieving a team goal, and to develop the skills to produce results.

2. Registration requirements・How to apply to register・Schedule

Undergraduate students are eligible to register for this program. There are no college or year-level requirements. Registration requirements and information on application for registration are stated on the following pages. Your responses to the questions provided in the application page and the documents/information submitted will be used in the selection process for registering for this course.

GL101	Introduction to Leadership through Project-Based Learning ＜Japanese＞

In this class you will come to realize your own style of leadership and learn how to demonstrate this leadership as you collaborate with a diverse group of students across year-levels and colleges to work towards solving challenges posed by cooperating companies.

Course eligibility

All students in all year levels and all colleges/departments except the College of Business

Application shall be submitted through the GL101 Application Form.
https://forms.gle/47YUM9QFEJsVKSC59

Application period	April 2 (Tue.) 10:00a.m.-April 5 (Fri.) 12:00p.m.
Announcement of selection results	April 9 (Tue.) 6:00p.m. Accepted students: GL101 will appear in a time slot in the Course Registration System Non-accepted students: The course name will not appear in a time slot in the System

<Important>

 * Note that the application period is short (same period as the primary lottery selection registration)!

 * Please ensure that you have no other courses (such as University-wide courses) registered in the Course Registration System on the same day and time of this course (Mondays, 5th period or Tuesdays, 5th period).

 Please note that if you have registered for another course in the System with a primary lottery, secondary lottery, or course code registration, the course registration in the System will be given priority and your application for GL101 will be cancelled. Also note that the courses you apply for through Blackboard are not included in the maximum number of registered credits in the Course Registration System, so you should be careful not to exceed the maximum. Every year, there are 10 to 20 students who have their application for this course cancelled for this reason.

 * When applying, please select one campus you wish to attend or both campuses in the questions field (Ikebukuro, Niiza, or both).

 *Accepted students will be assigned to an arbitrary class by the day of week and time (campus) they wish. When receiving the selection results, be sure to confirm which class you are assigned to.

 *There is a class that allows third-year high school students from Rikkyo Ikebukuro and Rikkyo Niiza High Schools to audit.

GL102	promoting leadership development in others ＜Japanese＞
GL103	Leadership communication ＜Japanese＞
GL104	Leadership utilizing logical thinking ＜Japanese＞

GL102

A course to learn about how to develop other people's leadership through consideration on the mechanism behind attaining leadership skills. Students learn about how to develop other people's leadership through practice with BLP course attendees and other students from a variety of colleges/departments.

(1) Understand mechanisms of acquiring leadership.
(2) Understand methods to develop leadership.
(3) Aim to practice promoting leadership development in others.

GL103

This course starts with a deeper understanding of self and others, as previously learned in GL101 and BL0. After understanding how you are viewed by others, students consider the relationship among the players in the room and come up with mechanisms and tricks to get people to work together effectively. By learning through classroom lectures, group work, and practice outside of the class, students will be able to use what they have learned.

GL104

In this course, students learn logical thinking skills, which are a valuable aid in demonstrating leadership, from both theoretical and practical perspectives. Students learn not only through lectures, but also by practical work outside of class and by providing opportunities for students to share what they have learned. By acquiring this fundamental skill, students will be able to improve the quality of their projects while in school and demonstrate their leadership skills even after graduation.

3. Q&A

Q. Can I register for GLP courses on the Web Registration screen?

A. You cannot register for GLP courses on the Web Registration System under the Course Registration System. Before applying, first confirm your maximum number of registered credits and time schedule. Despite passing the selection process, every year there are a number of students who have to withdraw their registration for GLP courses due to a class scheduling conflict or a commuting time miscalculation between campuses (it takes at least one hour to travel between the Ikebukuro and Niiza campuses). Please be sure to carefully check this information.

Q. What is the application-to-acceptance ratio?

A. The ratio for GL101 is between 2.0 and 3.0. every year. Courses with an upper limit of participants are almost always filled through a selection process.

Q. If there are less applicants than an upper limit of participants, can I be assured a place in the course?

A. Selection of students is carried out based on responses to the application questions and the submitted materials, therefore, even if the number of applicants does not exceed the upper limit of the course, there may be some applicants who are not pass the selection process.

Q. I'm currently in my second year. Can I take GL101 even when I'm not in my first year?

A. Yes, you can register for the course. Applications for registration are open to all students regardless of college/department or year level. Registrations by upper-year students are welcomed, since they provide more diversity to the classes.

Q. I've heard that there is a common rule which is strict, such as with absences and tardiness. Is this true?

A. We have established a specific course-wide rule of Rikkyo GLP. In this rule, for example, being absent three times earns a student D grade, being late on two occasions is equivalent to being absent one time, and being late 20 minutes or more is equivalent to being absent one time.
