

“International Cooperation Human Resources” Development Program

Program Objectives

The "International Cooperation Human Resources" development program is a program for students of all faculties and to study a wide range of fields related to "international cooperation" systematically in English.

The single word “international cooperation” covers that the field is very diverse. This program offers basic courses covering a wide range of fields of international cooperation, courses that delve into each field in a seminar-style, and learning the forefront of international cooperation through fieldwork. In recent years, companies, local governments, and universities have made various efforts on Sustainable Development Goals (SDGs) in the international cooperation field, and you can also learn about them.

Program structure
